## The Philosophers and the Frog

Dr. Safford, for many years professor of chemistry in the Medical College of the University of Nashville, used to tell his students a fable—the moral of which was "prove it." Certain wise men were gathered together to ascertain the explanation of a statement that when two glasses of water of equal weight are balanced on the beams of a balance scale and a frog is then put in one of the vessels the balance remains the same, thus attempting to prove the assertion that a frog has no weight when immersed in water. Each wise man had his own explanation, and there was much heated argument and discussion. "But is your statement true? Let's prove it." Of course when it came to proving it, they couldn't.

So when you hear people say that Coca-Cola is injurious, just ask them to prove it. They can't. Nobody can, because it is not injurious. But on the other hand it can be proved that it is not injurious by chemical analysis. Or, if you are not a chemist yourself, why not accept the verdict of every competent chemist who ever analyzed it? Eminent College and University Chemists, Commercial Chemists, Government State and City Chemists—all have analyzed Coca-Cola and not one has ever been able to find anything injurious in it. The very next time you hear anyone say that Coca-Cola contains deleterious ingredients tell him to write the Coca-Cola Co., Atlanta, Ga., for a free copy of their booklet, "The Truth About Coca-Cola." The meantime write for a copy for yourself—you will find it very interesting.

Charles K. Hamilton's freak 110 horsepower biplane which was on the ground in readiness for a flight, was partly wrecked in a crash with Dr. W. W. Waldron's monoplane. G. M. Dyott, Waldron's partner, who was driving the monoplane, lost control of his craft and crashed into the stationary biplane.

## \$3 RECIPE FREE! To Cure Sick Women

Women suffering from any female weakness know that specialists in women's diseases charge high fees, usually from three to five dollars, for writing an ordinary prescription. The free offer of Dr. Bertha C. Day, the able Woman Specialist of Fort Wayne, Indiana, is therefore all the more remarkable and commendable, as it is made out of the goodness of her heart, to help her sister women without asking or expecting in return for her gifts any payment except their gratitude and her firm consciousness of having put her superior talents to a noble use.

This proficient doctor and womanly woman, wife and mother, has successfully treated in the privacy of their own homes thousands of women suffering from leucorrhea, or whitish discharges, nervousness, dizziness, displacement or falling of the womb, profuse, scanty or painful periods, uterine or ovarian troubles, change of life and the other diseases and weaknesses so common to her sex.

Her cures have been made through the compound of her own formulae, which, when taken into effective formulas that go straight to the seat of the disease, remove its cause and allay the pain in head and back, the bearing-down sensations, hot flashes, weakness and despondency that indicate female weakness and body troubles.

"On the face, this shows Colquitt had to begin his campaign with four out of five of the voters indifferent, if not hostile, to him.

"Many who voted in the primaries for him are Republicans and will vote for Terrell, and it is a matter of experience that the vote in the general election is always lighter than in the primaries.

"If only those who voted for Colquitt in the primaries were the Republicans who will go to Terrell, and less those who do not vote in general elections, vote for him, any reasonable division of the 400,000 voters who did not take part in the primary would give a greater vote than Colquitt will get.

"Plainly he must look to those who voted against him in the primary, the 'cranks,' 'fanatics' and preachers he denounced and ridiculed, to pull him out. I do not mean to say that Colquitt is such a great wrong for preachers to engage in politics in his favor.

"In some states he would ask for such help in vain, but in Texas the prohibitionists are such sheep that there need be no fear they can not be driven to eat their words.

An Illustration.  
"Just as an illustration: At Galveston, during the conference, Judge Poinsett wanted a declaration for prohibition of some kind in the platform, whereat Joe Bailey spoke up: 'Judge, I am getting out of patience with you prohibitionists; local option is good enough.' So docile was the judge under the rebuke that at another conference held in north Texas it was decided to allow him to run against Colquitt in 1912 with T. N. Jones to get up a prohibition organization to indorse him. Of course, at the last moment a speech will be made that will turn the voters to Colquitt again, but the judge was not told that. Prohibitionists are not fools; fools learn by experience. Therefore we conclude Colquitt has a cinch."

## CAMPAIGN IN NORTH TEXAS DRAWING TO A CLOSE

Judge Terrell Goes Next Into Southwest Part of State.

San Antonio, Texas, Oct. 20.—The most vigorous campaign ever conducted by a Republican candidate for governor, or any other office in Texas, in Democratic territory, will conclude this week. Judge J. O. Terrell, the Republican nominee for governor, completing his tour of North Texas. The remainder of the campaign will be in southwest Texas, which on state and national issues, usually goes Republican. Judge Terrell will speak Thursday night at McKinney, Friday night at Sherman and Saturday night at Denison. The Dallas speech will be on Kaufman county day at the State fair and will be free from politics.

The next two weeks will be spent in the twenty-fourth senatorial district, where Julius Real, Republican, is a candidate for reelection, and in the fifteenth congressional district, where John N. Garner, Democratic nominee for reelection, is opposed by Judge Noah Alken of Brownsville. Both of these Republicans are making an active campaign and Republicans hope both will be elected.

Lova is Hopeful.  
Col. Cecil Lova is chairman of the Republican executive committee, and other Republicans in charge of the campaign, are of the opinion Judge Terrell will make the best race, relatively speaking, of any candidate ever nominated by the Republicans. They estimate Colquitt will not be elected by more than 10,000 votes and that Judge Terrell might even be able to overcome this lead and be elected. There is no doubt there will be a big deflection of prohibition votes from the Democratic ranks on account of those who will vote for Judge Terrell and those who will stay away on election day and those who fail to vote for Colquitt. It is not believed the prohibition Democrats are doing any great worrying over the fact their absence from the polls may imperil the success of the Democratic party.

Hope for Prohibition.  
The Republicans are confidently hoping to get many prohibition Democratic voters, the prediction being made that more of these will be cast for Terrell than for Houston, the nominee of the Prohibition party for governor.

The following statement by Fred C. Couper, a prohibition Democrat of Houston, is being circulated by the Republicans as accurately representing the attitude of the majority of the prohibition Democrats as to Colquitt:

"There are about 750,000 paid poll taxes in Texas. About 350,000, less than half, voted in the Democratic primaries.

"On the face, this shows Colquitt had to begin his campaign with four out of five of the voters indifferent, if not hostile, to him.

"Many who voted in the primaries for him are Republicans and will vote for Terrell, and it is a matter of experience that the vote in the general election is always lighter than in the primaries.

"If only those who voted for Colquitt in the primaries were the Republicans who will go to Terrell, and less those who do not vote in general elections, vote for him, any reasonable division of the 400,000 voters who did not take part in the primary would give a greater vote than Colquitt will get.

"Plainly he must look to those who voted against him in the primary, the 'cranks,' 'fanatics' and preachers he denounced and ridiculed, to pull him out. I do not mean to say that Colquitt is such a great wrong for preachers to engage in politics in his favor.

"In some states he would ask for such help in vain, but in Texas the prohibitionists are such sheep that there need be no fear they can not be driven to eat their words.
